

Global Tax Audit Manager

Manage Global Audits More Efficiently

When it comes to tax audits, details count. In the event of simultaneous audits, it's essential to have quick access to all of the critical documentation and information. Get a clear picture of those details with Thomson Reuters **ONESOURCE™ Global Tax Audit Manager**. Our audit management software provides the consistency and organisation that corporate tax departments need to survive any tax audit — and even multiple simultaneous audits — with efficiency and ease.

Audit Management Made Easier

ONESOURCE Global Tax Audit Manager allows you to manage global audits by centralising the audit and controversy management process. This application enables you to manage and track examinations, information requests, payments, meetings, and adjustments for multiple entities. It gives you the control you need to keep your audit processes organised so you're prepared to respond to an influx of information requests.

ONESOURCE Global Tax Audit Manager gives you heightened visibility into the status of your audit process, which will help you manage due dates and coordinate activity among the individuals involved in the audit. This solution provides visibility across all jurisdictions and tax types. By tracking audit task ownership, audit responses, deadlines, and other vital information,

ONESOURCE Global Tax Audit Manager significantly reduces the risk of missing deadlines. In addition, by tracking a detailed history of discussions and agreements with tax authorities, it can improve internal controls and maintain audit trails.

A Solution for Improved Efficiency

Dashboard Analytics

ONESOURCE Global Tax Audit Manager features a dashboard layer to gain insight and visibility into tax audit and controversies across your organisation. Dynamic heat maps provide country- by-country summaries of audit activity across all areas of tax in real time. View on-demand statuses of enquiries, information requests, and upcoming due dates.

Intuitive reports make communication and upstream reporting to leadership clear, accurate, and fast.

Streamlined Document Management

Cut manual efforts of managing important audit documents and files in half through streamlined document management in a central location. With audit-ready documentation and processes in place, audit cycle timelines are accelerated and results are easy to defend.

Global Management

With globally distributed tax teams that share the responsibility of the tax function, we offer a tool supporting over 30 languages and currencies eliminating obstacles to efficiently oversee audit activity on a global scale.

By streamlining the overall audit process, **ONESOURCE Global Tax Audit Manager** will save you time, reduce your costs, and deliver improved audit results. Contact us today for more information about this innovative solution.
