

Transfer Pricing with Thomson Reuters

In an increasingly global economy, efficient management of transfer pricing is a significant issue for multinational enterprises (MNEs). As the OECD transforms the landscape with its Base Erosion Profit Shifting (BEPS) initiative, it's crucial for MNEs to develop an informed and comprehensive transfer pricing strategy.

As this change occurs, Thomson Reuters ONESOURCE Transfer Pricing helps you manage every step of your transfer pricing processes, and build a knowledge base that scales with your business. ONESOURCE Transfer Pricing software is the intelligent solution to make compliance easier and improve efficiency at every level. Our comprehensive solutions gives you the flexibility to mix and match features to fit your exact business needs.

Thomson Reuters simplifies the lives of tax and accounting professionals around the world with the most powerful, fully integrated and innovative tax solutions.

Thomson Reuters® ONESOURCE™, the industry's most powerful corporate tax technology platform, drives global tax compliance and accounting decision making around the world. With over 10,000 clients globally, and 87% of Fortune 100 companies using ONESOURCE, you can trust that we are there for every step of your tax journey.
