

# ONESOURCE DataFlow For Tax Reporting

## Simple, Secure and Efficient IFRS-Based Tax Reporting

When it comes to financial close, you need an IFRS-based reporting solution that provides you with the efficiency and precision you need to meet your obligations with confidence. Thomson Reuters ONESOURCE™ DataFlow for Tax Reporting is our new and simple solution to IFRS-based tax reporting.

### Why ONESOURCE DataFlow for Tax Reporting?

#### CHALLENGE: **MANUAL AND REPETITIVE WORK**

ONESOURCE solves this challenge by automating calculations and restrictions. Data providers are guided to a structured way of reporting.

#### CHALLENGE: **RISK AND MITIGATION**

ONESOURCE solves this challenge by offering version control, audit trail and user access controls. Users are guided from start to finish and the chance of human error is minimised.

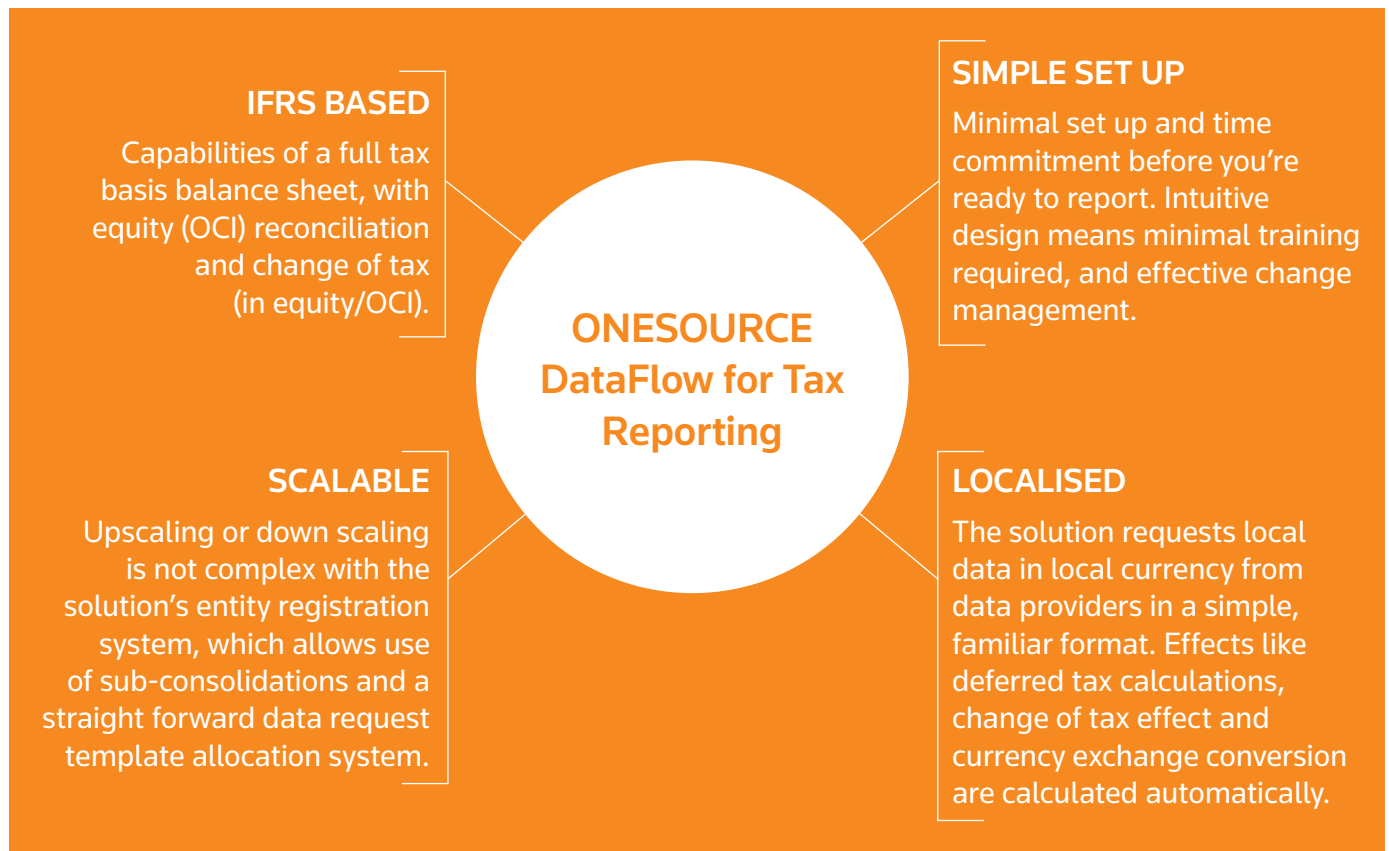

#### CHALLENGE: **LACK OF TIME FOR ANALYSIS**

ONESOURCE solves this challenge by using automation to consolidate data in seconds. Providing ample time for valuable data analytics.

#### CHALLENGE: **MONITORING**

ONESOURCE solves this challenge by providing one centralised environment, where your tax reporting data combined with supporting documentation can be monitored.

Integrate both structured ERP data and unstructured data into an extensive, IFRS based, tax reporting framework which is both simple to set up, and simple to use.

ONESOURCE DataFlow for Tax Reporting provides an intuitive application to make your tax reporting processes more efficient. Learn more about how ONESOURCE can support every step of your tax reporting processes—schedule a demo today.
