

# TAX PROVISION

## Global Access

## YOUR COMPREHENSIVE, GLOBAL TAX PROVISION SOLUTION

Whether you have operations in Berlin or Beijing, Global Access will provide you with an easy, secure, and efficient way to collect tax provision data from colleagues across the globe.

Global Access is a web-based data collection tool connected to ONESOURCE Tax Provision. With Global Access, you will no longer need to manually collect and consolidate data for the Global tax provision.

The process is simple. Remote users log into the ONESOURCE platform and follow an intuitive process to enter local tax provision information. Global Access consolidates the information, translates it into a common reporting currency, and provides a suite of reports for validating the results. Since Global Access is connected to ONESOURCE Tax Provision, all of the data in Global Access will automatically flow to ONESOURCE Tax Provision alleviating the need for a separate update. Global Access achieves this with a structured review and sign-off process conforming to the strictest governance policies.

### Why Global Access?:

- Simplified navigation with drill-down and step by step wizard for ease in collecting your global tax data
- Real-time updates of ONESOURCE Tax Provision to expedite the global provision process
- Configurable and translatable interface for easy adoption across your organisation
- Secure and controlled environment to satisfy your corporate governance requirements
- Full suite of reports calculating the local tax liability plus currency translations and rate change impacts

“Using the Global Access module of ONESOURCE Tax Provision allows us to gather close to 1,300 units worth of data in about 7 days, which has decreased the time it used to take by 50%.”

**Anne Jackson,**  
Manager, Tax Systems,  
Emerson Electronics Co.

“Global Access offers a central repository for our international entities to make a consistent tax input related to tax provision. This improvement has been the biggest value of switching to ONESOURCE Tax Provision.”
