

STATUTORY REPORTING

Harmonising Global Financial Reporting

Imagine a world of statutory reporting where the preparation and review process for each of your teams around the world is simple: taking hours instead of days, having consistent data throughout the report and automating repetitive tasks. Enter Thomson Reuters ONESOURCE™ Statutory Reporting.

For multinational corporations, today's business environment makes it vital to quickly and accurately prepare statutory reporting obligations across the globe. However, in order to achieve this, organisations must overcome adversities including heavy manual and time-consuming work, disparate processes and languages, and keeping up with ever-changing legislation in every country in which they do business.

ONESOURCE Statutory Reporting standardises the process of creating statutory financial reports through a centralised platform with a global function. We provide a standard global tool with the local language and regulations for each country, ensuring you will meet your local compliance needs more efficiently and effectively. Updates from the trustworthy experts at the Big 4 allow you to redirect time you'd normally spend on research, formatting and burdensome manual work. While the translation functionality enables your teams to prepare and review financial statements in English and local language as required, reducing the need to rely on language experts or external third parties.

WHY EXPAND?

Expanding your use of ONESOURCE Statutory Reporting for additional countries helps you redirect time and resources to valuable work through the following:

Scale: As a current ONESOURCE Statutory Reporting customer, you leverage your existing knowledge – process, product and deliverables—to quickly expand your statutory reporting capabilities.

Standardisation of best practices: We provide the content you need, when you need it. Country-specific content from the Big 4 provides you assurance that it meets the local compliance rules. With automatic updates in a standardised process and standardised content, you spend less time tediously labouring for data consistency—increasing efficiency, improving controls, and saving you time and money.

Increased visibility: As a single, global solution, ONESOURCE Statutory Reporting enables greater regional and global transparency into the statutory financial reporting process, giving you confidence that every report in every country is accurate and on time.

KEY BENEFITS

With every instance, you get all that ONESOURCE Statutory Reporting has to offer:

Speed: ONESOURCE Statutory Reporting facilitates the completion of financial statements earlier in your financial process. You spend less time on data collection and managing multiple report iterations with auditors, which allows for quicker access to the data you need.

Transition from GAAP to local statutory: Reconciling the walk from GAAP to local statutory is simpler than ever. You can easily load General Ledger data in multiple formats with audit trails for all data sources.

Finance transformation: With ONESOURCE, you have one provider for a standard process—a consistent, centralised platform for global control of your financial reporting.

The simple things: These include pre-linked disclosures, automated rounding, note/page number referencing, roll forward, linking data, pre-tagged XBRL reports, adding/removing/customising disclosures quickly and standard work papers. Capture and store your data once to improve the quality of your reports and prevent re-keying errors.

FEATURES

Automation: Save time and increase accuracy when preparing your reports with automatic rounding, note/page numbering, referencing and a roll-forward process. You will also be able to generate supporting work papers that link your source data to your report.

Accounting standards disclosure updates: New and updated disclosures can be quickly applied to your reports, enabling you to easily keep up to date with changes to accounting standards.

Big 4 content: Benefit from the quality and consistency of best-practice content provided by the Big 4 accounting firms. Regular content releases are provided to assist you to comply with updates to accounting standards.

Capture data once: Capture and store your data in one location to stop re-keying errors. Changes need only be made once to be reflected throughout your reports.

Complete audit trail: Standard work papers help substantiate your reports by providing a full audit trail from your trial balance, including adjustments, to your reports.

Create formulas and variables: Create and control your own formulas and variables to link and reference data throughout your reports.

Flexible disclosures: Insert and customise new disclosures in your reports using our standard templates, or create and control your own specific disclosures.

Maintain corporate standards: Maintain the accuracy, quality and consistency of your corporate reports by controlling the updates to common notes and disclosures across your group.

Smart table editor: Our smart table editor provides a user-friendly, intuitive way to tailor your tables, choosing what information to disclose and change formatting.

Solve the language challenge: Automate the translation of local country financial statements and the user interface, enabling the statutory reporting process to be fully centralised. This allows you to prepare and view reports in local language and English.

Thomson Reuters is continually adding new country content to our ONESOURCE Statutory Reporting platform to ensure you're supported everywhere that you do business.
